Bernardo Lagos

1. SUMMARY

Results-driven **Software Engineer** with a Bachelor’s degree in Computer Science and **2+ years of experience** in Fullstack Development. Proven expertise in **JavaScript, React, and Node.js**, with a strong track record of delivering scalable web solutions and collaborating effectively in agile teams. Currently expanding technical proficiency into **Python, Go, and Cloud Infrastructure (Docker/Kubernetes)**.

2. SKILLS

- Languages & Frameworks:** JavaScript (ES6+), TypeScript, React, Node.js, HTML5, CSS3, Python, Go.
- Databases:** SQL (MS SQL Server, MariaDB), MongoDB.
- Tools & DevOps:** Git, GitHub, NPM, Sourcetree.
- Core Competencies:** Fullstack Development, RESTful APIs, Agile Methodologies, Project Management, UI/UX Optimization.

3. PROFESSIONAL EXPERIENCE

FullStack Developer | INSTICC Setúbal, Portugal
May 2023 - Oct 2025

- Developed and maintained robust web applications using **React** for frontend and **Node.js** for backend services.
- Designed and optimized modern, responsive user interfaces, significantly improving UX/UI performance.
- Architected and implemented **RESTful APIs**, console applications, and backend microservices.
- Managed and modeled **SQL and MongoDB** databases, ensuring data integrity and high-performance queries.
- Built reusable components and modular code libraries to increase development efficiency across teams.
- Managed the publication and maintenance of internal **NPM packages**.

4. EDUCATION AND CONTINUOUS LEARNING

Python Programming Specialization (350h) IIEFP | Dec 2025 - April 2026

- Intensive training focused on advanced Python logic, data structures, and full python integration.

Bachelor’s Degree in Computer Science Instituto Politécnico de Setúbal (IPS) | 2020 - 2023

Technical Certifications (Udemy):

- **Modern React with Redux:** Advanced state management and TypeScript integration.
- **Go (Golang):** Concurrency models (Routines/Channels) and scalable backend design.
- **Docker & Kubernetes:** Containerization, CI/CD workflows, and AWS/Google Cloud deployment. (In Progress)
